SafetyQuip Awarded Spot in BRW Fast Franchises List

SafetyQuip was today announced as a BRW Fast Franchise and is ranked 31 on the 2010 list.

The BRW Fast Franchises list ranks companies according to their average annual turnover growth over three years. According to the business magazine the entrepreneurs running the BRW Fast Franchises are extremely confident about their futures.

Commenting on their success in the annual BRW ratings, CEO Gary Shearer said, "Safety is a significant growth industry. SafetyQuip has franchises established in all mainland states and is Australia's only significant franchised player in full scope Workplace Safety Products & Services – a growing billion dollar plus market."

"In terms of potential for our current and future franchisees, we believe that the safety business is the kind of ground floor opportunity that McDonalds was 20 years ago and Subway 10 years ago."

"We have established a potent combination, enabling motivated franchisees to build businesses of considerable value and are actively looking for the right people to establish locally owned and operated franchise businesses in Sydney, Mackay, Townsville/Cairns, Rockhampton, Tasmania, South Perth and South Adelaide."
