Brady PrintFace Padlocks

A personal padlock like no other.

WHAT IS PRINTFACE?

Avoid confusion and quickly identify employees with a personalised printed padlock.

Print anything from an employee's name, photo, ID number or company logo and asset barcode directly onto the body of a padlock.

FULLY CUSTOMISABLE

Add logos, photos, text, ID numbers and more

MORE COST EFFECTIVE

Than ink-filled engraving or high-end labelling

LONGER LASTING FINISH

Suitable for indoor and outdoor applications

ABRASION, CHEMICAL & UV RESISTANT

Tested to ASTM standards

HIGH RESOLUTION

Permanent print, full colour options

Custom Keying Systems

We have many custom keying options available, including thousands of genuine **key to differ** options and the ability to **key alike**, **master key** and **grand master key**.

BENEFITS OF HAVING SAFETYQUIP MANAGE YOUR UNIQUE KEY REGISTER ARE:

1. To ensure there are no duplicate/shadow keys on your premises, ensuring the security integrity is managed on-site
2. When you need to build onto your current padlock family with additional products to suit your secured keyway,
We can assist and make this a quick and easy process
3. The key register is held in Australia with maximum security to ensure your company's information is secured
4. Fast and efficient lead times
5. Provide your company with total asset management control.

PADLOCK IDENTIFICATION

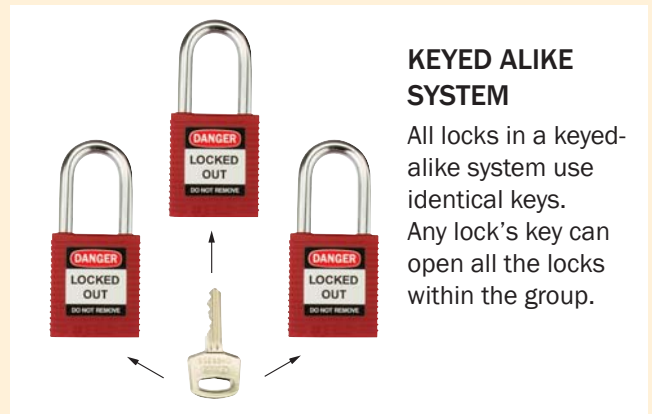

SafetyQuip offers customers a variety of padlock identification solutions, which include PrintFace, engraving, EPREP labels and personalised identification cards.

PADLOCK KEYING OPTIONS

KEYED DIFFERENTLY SYSTEM

Each lock in a keyed differently system has its own unique key. Guaranteed no duplicates, must be specially requested. Consider if a master key is needed.

KEYED ALIKE SYSTEM

All locks in a keyed-alike system use identical keys. Any lock's key can open all the locks within the group.

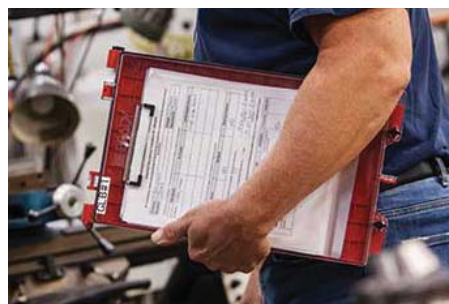

MASTER KEYED SYSTEMS

A master key opens all locks in the system, even though each lock has its own individual key. This system permits organising submaster, master and grandmaster systems along departmental or other functional lines. Master keys can also be made to fit multiple groups of Keyed Alike locks. For even greater convenience, all custom keying requirements for Lockout Padlocks are keyed locally for faster delivery time.

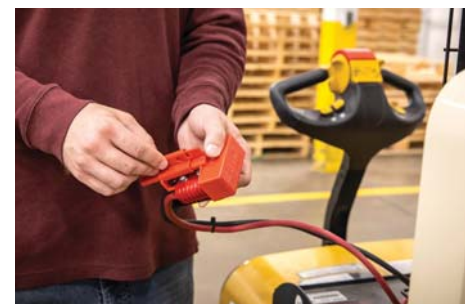

- Supervisory master key opens all locks in system
- Each padlock also opens with an individual key
- Allows for organising of Grandmaster, Master and Submaster systems.

6-Lock Board

Permit Display Case

BatteryBlock™ Power Connector Lockout

No Hole Circuit Breaker

- Clamp-on breaker lockout
- Easy to install using thumb-wheel design
- Locks out most single pole circuit breakers & Federal Pacific breakers
