This cabinet is suitable for the storage of Class 9 Dangerous Goods such as storage of Lithium-ion Batteries (uncharged), but also includes the storage of battery-powered equipment, airbag inflators, chemical or first aid kits, solid carbon dioxide, dry ice, ammonium nitrate fertiliser, polymeric beads, and plastic molding compounds.

\$1,898.85
BC5535CL9

Lithium-ion Battery Charging Cabinets (Class 9)

Specifically designed to keep Li-ion batteries in a cool, dry and secure environment, these cabinets offers a range of features to reduce battery fire risk.

- Double-walled steel construction with a 40mm thermal air barrier between the walls, and sealed to prevent the spread of flame or heat radiation
- Electrically certified with 10AMP power inlet and IP54 rated fittings
- 2 adjustable pole power points
- 150mm fan
- Safe-T-Close® door close system automatically closes doors smoothly and in sequence
- Self contained spill containment sump
- Australian Made

Storemasta Li-ion Battery Cabinets are manufactured to comply with the Australian Standard AS NZS 4681 - The storage and handling of Class 9 (miscellaneous) dangerous goods. They also meet the standards of AS 1940 - the storage and handling of flammable and combustible liquids for fire protection, with cabinet componentry withstanding temperatures up to 850 °C.
