- ▶ Contains the essential contents for effectively treating minor heat burns

Case Dimensions: 223 (H) x 125 (W) x 80 (L)

BURNS FIRST AID MODULE

PART NO. 881080

First Aider's Choice™

- ▶ Compact comprehensive burns module
- ▶ Contains the essential contents for effectively treating minor heat burns
- ▶ Module can be used as an additional component to complement an existing core workplace kit
- ▶ Clear front on case gives user visibility of contents when in an emergency

Burns Module meets the requirements for the prompt and effective treatment of heat burns. The contents will provide suitable burn treatment in emergency situations. Contents include the most popular combination of products for minor burns treatment. This module can be used as an additional component to complement an existing core workplace safety kit. This is especially useful in situations where there is a high risk of burn injuries. By adding this module to the core kit, you can enhance burn injury response and compliance with safety regulations.

The module case is colour coded and labelled making it an easy grab and go option in an emergency. The clear front on the case allows users to see the contents of the module without having to open it. This transparency ensures that items are easily identifiable, saving time in an emergency. The Velcro strap at the back of the module case is a versatile attachment method. Users can secure the case to first aid kits, backpacks, or even their pants so it's always within reach.

Case Dimensions: 223 (H) x 125 (W) x 80 (L)

MODULE CONTENTS:

- 1 x** Conforming Bandage - 7.5cm
- 2 x** Hydrogel Dressings - 10cm x 10cm
- 8 x** Hydrogel Sachet - 3.5g
- 1 x** Nitrile Gloves - Pair
- 1 x** Non-Adherent Dressing - 10cm x 10cm
- 2 x** Sterile Plastic Sheets - Medium, 60cm x 45cm
- 1 x** Sterile Plastic Sheet - Large, 61cm x 91cm
- 1 x** Burns First Aid Guidance & Contents Card

SPRAINS & STRAINS FIRST AID MODULE

PART NO. 881083

First Aider's Choice™

- ▶ Module contains the essential contents for effectively treating sprains and strains
- ▶ Ideal inclusion for first aid kits where there is a high risk of sprains and strains in the workplace or sporting field
- ▶ Module can be used as an additional component to complement an existing core workplace kit
- ▶ Clear front on case gives user visibility of contents when in an emergency

Sprains and Strains Module contains a range of products suitable for treating common outdoor, sport and manual handling injuries. This module is an ideal inclusion to first aid kits when there is high risk of muscle or ligament injury.

The module case is colour coded and labelled making it an easy grab and go option in an emergency. The clear front on the case allows users to see the contents of the module without having to open it. This transparency ensures that items are easily identifiable, saving time in an emergency. The Velcro strap at the back of the module case is a versatile attachment method. Users can secure the case to first aid kits, backpacks, or even their pants so its always within reach.

MODULE CONTENTS:

- 1 x** Heavy Crepe Bandage - 10cm x 2m
- 1 x** Heavy Crepe Bandage - 7.5cm x 2m
- 1 x** Triangular Bandage - Disposable, 110m x 155cm
- 1 x** Instant Cold Pack - Small
- 1 x** Instant Cold Pack - Large
- 1 x** Sprains & Strains First Aid Guidance & Contents Card

Case Dimensions: 223 (H) x 125 (W) x 80 (L)

OUTDOOR & REMOTE FIRST AID MODULE

PART NO. 881084

+ First Aider's Choice™

- ▶ Module contains the essential contents for remote work locations or outdoor activities
- ▶ Includes essential items such as snake bite bandage, rescue whistle and torch
- ▶ Module can be used as an additional component to complement an existing core workplace kit
- ▶ Clear front on case gives user visibility of content when in an emergency

An outdoor and remote module is a valuable addition to a first aid kit when you are venturing in to remote work locations or engaging in outdoor activities. This module typically includes essential items to address common injuries and emergencies that can occur in the great outdoors such as snake bites, insect stings and broken bones. This module includes a rescue whistle and torch to draw attention in emergency situations.

Contents are packed into a module case that is colour coded and labelled making it an easy grab and go option in an emergency. The clear front on the case allows users to see the contents of the module without having to open it. This transparency ensures that items are easily identifiable, saving time in an emergency. The Velcro strap at the back of the module case is a versatile attachment method. Users can secure the case to first aid kits, backpacks, or even their pants so it's always within reach.

Case Dimensions: 223 (H) x 125 (W) x 80 (L)

- 1 x** Snake Bite Bandage With Indicator
- 5 x** Antiseptic & Itch Relief Cream - 1g
- 1 x** Instant Cold Pack - Small
- 1 x** Emergency Thermal Blanket
- 1 x** LED Torch
- 1 x** Emergency Rescue Whistle
- 1 x** Sterile Plastic Sheet - Large, 61cm x 91cm
- 1 x** Snake Bite & Insect Stings First Aid Guidance
- 1 x** Outdoor & Remote First Aid Guidance & Contents Card

TRAUMA FIRST AID MODULE

PART NO. 881082

First Aider's Choice™

- ▶ Module contains the essential contents where there is a high risk bleeding and shock
- ▶ Trauma module is a vital addition to high-risk workplaces and a valuable addition to an existing core workplace kit
- ▶ Clear front on case gives user visibility and quick access of contents when in an emergency
- ▶ Ideal for high-risk environments like construction sites, industrial settings, and remote work locations

The trauma module is tailored to meet the unique needs of high-risk workplaces where major accidents or injuries are more likely to occur. This could include construction sites, industrial settings, or remote work locations. In an emergency, quick access to trauma care supplies is essential, and a portable module makes it easier to respond promptly. This module can be used as an additional component to complement an existing core workplace safety kit. This is especially useful in situations where there is a high risk bleeding and shock. By adding this module to the core kit, you can enhance trauma response and compliance with safety regulations.

The module case is colour coded and labelled making it an easy grab and go option in an emergency. The clear front on the case allows users to see the contents of the module without having to open it. This transparency ensures that items are easily identifiable, saving time in an emergency. The Velcro strap at the back of the module case is a versatile attachment method. Users can secure the case to first aid kits, backpacks, or even their pants so its always within reach.

Case Dimensions: 223 (H) x 125 (W) x 80 (L)

MODULE CONTENTS:

- 1 x** Heavy Crepe Bandage - 15cm x 2m
- 1 x** Triangular Bandage - Disposable, 110m x 155cm
