# SHARPS STATION

The Trafalgar Sharps Clean Up Station is designed for the safe and secure collection and disposal of potentially hazardous sharps, including used syringes, needles, and other sharp objects. This comprehensive kit ensures proper handling to prevent injury or contamination. The station comes in a clear plastic case with essential items such as disposable gloves, adhesive strips, and gauze swabs for added protection and cleanup. For further safety, it contains Chlorhexide antiseptic for sanitisation and a pick-up tool to handle sharps without direct contact. Perfect for use in healthcare settings, laboratories, or any environment where sharps waste is prevalent, this kit provides a reliable and effective solution for managing sharps disposal and minimising health risks.

- ▶ Ideal for the safe collection and disposal of potentially hazardous sharps, such as used syringes, needles, and other sharp objects
- ▶ Content includes Chlorhexide antiseptic, and a pick-up tool for safe handling and disposal
- ▶ Ideal for use in healthcare settings, laboratories, or any environment where sharps waste is common
- ▶ First aid station case features a convenient bracket for easy mounting and access
