

FILTERS

FOR USE WITH THE VANGUARD G4 POWERED AIR PURIFYING RESPIRATOR (PAPR)

PRF-SR2-P3

PARTICULATE FILTER (P3)

- High-efficiency particulate filter (HEPA), 99.997% filter efficiency
- For protection against highly toxic or highly irritant particulates
- Complies with AS/NZS 1716:2012 Respiratory Protective Devices.

PRF-SR2-ABEK1

MULTI-GAS FILTER (ABEK1)

- For protection against certain organic vapours (boiling point above 65°C), acid gases, sulphur dioxide, and ammonia
- Complies with AS/NZS 1716:2012 Respiratory Protective Devices.

PRF-SR2-OD

NUISANCE ODOUR FILTER

- Protection against nuisance odours
- Nuisance odours are captured through absorption into the filter, trapping odour molecules (VOCs)
- Activated carbon
- Complies with AS/NZS 1716:2012 Respiratory Protective Devices.

PRF-SR2-PF

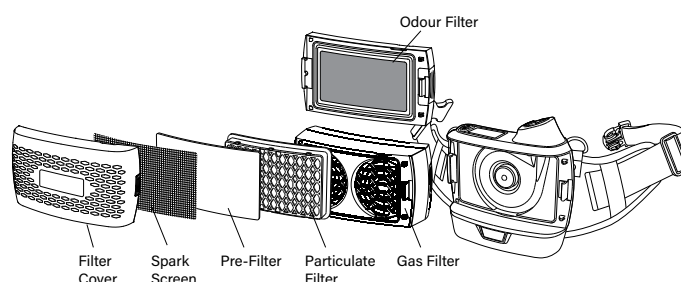

PRE-FILTER (5 PACK)

- Pre-filter captures large debris/particles prior to entering the filter, reducing operational costs.

FILTER LOADING

- PIP Vanguard filters can only be used exclusively with the PIP Vanguard blower system
- A pre-filter and particulate filter must be used at all times. Odour and Gas filters are optional based on application.

FILTER LIFE

- Filter life depends on usage time, flow rate, and particulate/gas vapour exposure. The blower will provide a visual, audible and vibration alarm indicating filter status for replacement
- Replace filters if they are excessively dirty, wet or damaged
- Filters cannot be cleaned.

STORAGE

- Store filters in their original packaging in a clean dry location, away from direct sunlight and high temperatures. Do not store them outside the temperature range of -10°C to 55°C or in environments with humidity exceeding 85%
- Before use, confirm the filter is within shelf life
- Period of obsolescence:** 5 years (manufacture date is on filter label).
