FILTER EFFICIENCY

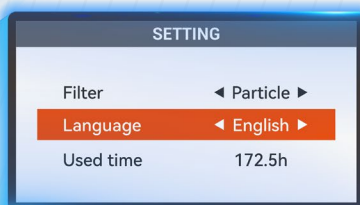

ALARM SYSTEM

If the filter is missing or incorrectly fitted, the battery is low, or airflow is insufficient, a pop-up will show on the display, the blower will vibrate and an alarm will sound ensuring you're always informed of critical issues.

FILTER MONITORING

The blower tracks and displays filter type, usage time, battery status, filter loading, and airflow rate, giving you full control and insight into system performance.

SMART DIGITAL DISPLAY

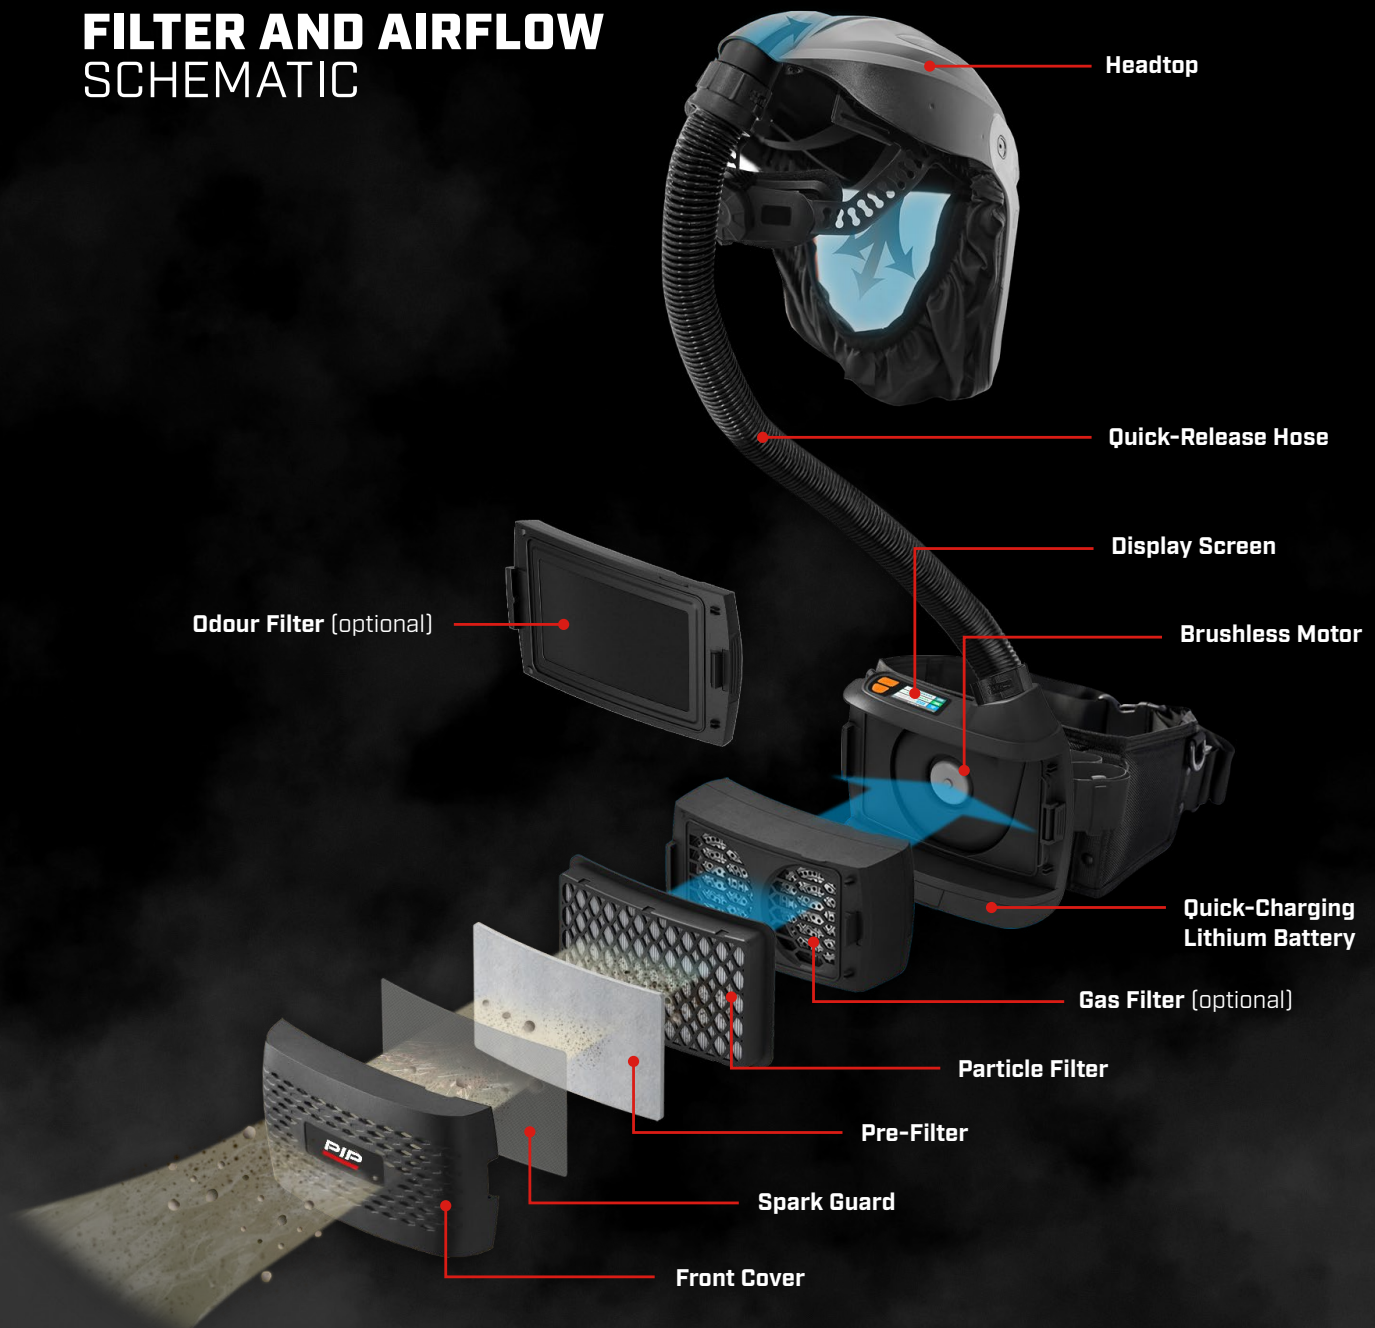

With high colour accuracy and wide viewing angle, the display ensures easy readability from any angle, even in challenging environments.

Certified to: AS/NZS 1716:2012 Respiratory Protective Devices. Compliant with AS/NZS 1801 Type 1 Industrial Safety Helmet, AS/NZS 1337.1 High Impact Eye/Face Protection and AS/NZS 1270 Acoustics–Hearing Protectors when fitted with optional earmuffs.
