

# PILOT Retractable Belt Barrier System

safetyquip.com.au

## TECHNICAL DATA SHEET

### Product Description:

Portable belt barrier system to surround restricted areas quickly and efficiently.

### Applications:

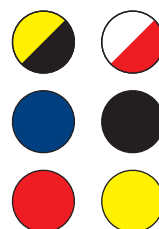

Adaptable to any internal and external environment in a wide range of industries, from construction to airports and shipping, events, retail and many more.

### Hazards:

Can be deployed into any traffic, construction or facilities management situation to control hazards where pedestrian safety may be at risk.

### Features:

- Belt extends to 10 metres
- Four-way connectivity
- Pilot body comes complete with braked belt, locking clip, cone mount adaptor and locking wall receiver
- Wall mount: Permanently fix to any flat surface, supplied with belt wall receiver
- Magnetic mount: Temporarily attach to any metal surface, built-in safety bungy, supplied with magnetic wall receiver
- Made tough to last: the Pilot body is moulded from tough nylon to take the bump and grind of daily life in the field
- Twist-lok connectivity: Provides simple connection of most Pilot accessories without the need for tools
- Pilot is available in six standard belt colours
- Anti-tamper feature: The Pilot belt unit is fitted with a security screw which helps prevent any unauthorised removal of the unit
- Crucial internals run on sealed stainless steel bearings and aluminium spindles, not plastic bushes
- Complete integrated system: many options available
