

# IGNITE PROTON WIND HARNESS

**NEW PROTECTIVE BACK PAD**

**NEW FOUR-MOTION PIVOT DESIGN**

**NEW SHOULDER AND LEG PADS**

## BACK PAD WITH INTEGRATED ABRASION PROTECTION

The rear attachment point has been redesigned to better protect against abrasion caused by carabiners and now includes a soft back pad for extra comfort.

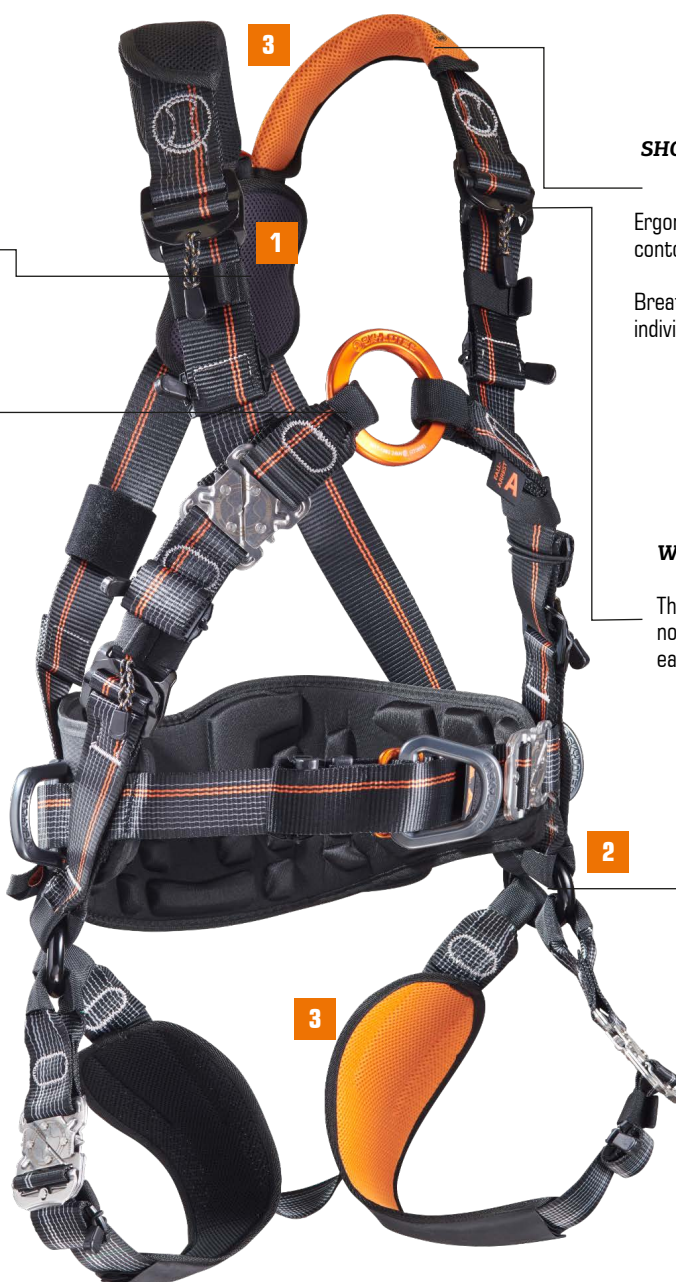

## OPTIMIZED ABRASION PROTECTION

The front attachment point has been updated to include abrasion resistant webbing to reduce wear and tear and increase durability even under heavy usage.

## EXTREMELY DURABLE BUCKLES

Corrosion resistant stainless steel construction.

The OKTALOCK buckles have been redesigned for easier adjustment.

## SHOULDER PADS

Ergonomically designed shoulder pads are contoured to increase comfort.

Breathable shoulder pads do not slip and are individually replaceable and washable.

## WEBBING ADJUSTER BUCKLES

The corrosion resistant webbing adjusters now have strong rope pulls for faster and easier adjustment.

## IMPROVED FOUR-MOTION DESIGN

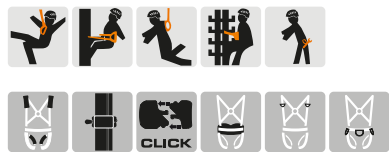

The improved design increases comfort during suspension and work positioning.
