# Science. Applied to Life.™

# 3M<sup>™</sup> Protecta<sup>®</sup> Rebel<sup>™</sup> Self Retracting Lifelines

**Technical Data Sheet** 

#### **Description**

The Rebel™ self retracting lifeline (SRL) line is built to last providing an economical fall protection solution without compromising performance or safety. Rebel™ SRL's feature a 140kg user capacity, a robust design to ensure longevity and are available in lengths from 6m to 30m.

#### **Features**

- Thermoplastic Housing
   Lightweight, compact and durable
- Stackable
   Housing design allows for stacking on work surfaces
- Side Cable Exit
   Enables smooth operation and reduces cable wear
- Galvanised and SS Cable
   Stainless steel option for added corrosion resistance
- Self Locking Snap Hook
   Automatically closes and locks for added safety. Models with triple action karabiners also available.
- Ergonomic Carrying Handle
   Built-in design makes transport, setup and storage easy
- Ergonomic Cable Handle
   Provides added comfort and ease-ofuse when making connections
- Impact Indicator
   Provides visual indication of fall arrest
- Swivel Hook
   Limits lifeline twisting
- 16 kN Gate Capacity
   Reduces chance of accidental disengagement ("roll-out").

### **Specifications**

3M <sup>™</sup> Protecta <sup>®</sup> Rebel <sup>™</sup> Self Retracting Lifelines		
Capacity	140kg	
Brand	PROTECTA®	
Sub Brand	Rebel <sup>™</sup>	
Size	6-30 m	
Velocity Ship	Yes	
Product Styles	Single Lifeline	
Product Types	Standard/Traditional	
Housing Type	Thermoplastic	
Lifeline Type	Galvanised Cable & Webbing	
Mounting Type	Overhead Anchor Point	

#### **Standards**

Certified to EN 360:2002 and acceptable for use in Australia and New Zealand under section 1.6 of AS/NZS 1891.3:1997

## Maintenance/Cleaning

Cleaning procedures for the SRL are as follows:

- Periodically clean the exterior of the SRL using water and a mild soap solution. Position the SRL so excess water can drain out. Clean labels as required.
- Clean the lifeline with water and mild soap solution. Rinse thoroughly air dry. Do not force dry with heat. The lifeline should be dry before allowing it to retract into the housing.

An excessive buildup of dirt, paint, etc., may prevent the lifeline from fully retracting back into the housing causing a potential free fall hazard.

#### **Inspection Frequency**

Inspection frequency requirements must be followed according to AS/NZS 1891.4 or 3M's user instructions. 3M may recommend more frequent inspection and recertification if the product is exposed to a harsh environment or rugged use. All inspection and maintenance data must be recorded in an inspection and maintenance log maintained by the company.

#### **Disposal**

Dispose of the SRL if it has been subject to fall arrest forces or inspection reveals an unsafe or defective condition. Before disposing of the SRL, cut the lifeline in half or otherwise disable the SRL to eliminate the possibility of inadvertent reuse.

#### **Storage**

Store the transport SRLs in a cool, dry, clean environment out of direct sunlight. Avoid areas where chemical vapors may exist. Thoroughly inspect the SRD after any period of extended storage.

#### Warning

To reduce the risks associated with working with an SRL which, if not avoided, could result in serious injury or death:

- Before each use, inspect the SRL and check for proper locking and retraction.
- If inspection reveals an unsafe or defective condition, remove the device from service and repair or replace according to the User Instructions.
- If the SRL has been subjected to fall arrest or impact force, immediately remove the SRL from service and label the device 'UNUSABLE'.
- Ensure the lifeline is kept free from any and all obstructions including, but not limited to; entanglement with moving machinery or equipment (e.g., the top drive of oil rigs), other workers, yourself, surrounding objects, or impact from overhead objects that could fall onto the lifeline or the worker.
- Never allow slack in the lifeline. Do not tie or knot the lifeline.
- Attach the unused leg(s) of the Harness Mounted SRD to the parking attachment(s) of the harness if equipped.
- Do not use in applications that have an obstructed fall path. Working on slowly shifting material, such as sand or grain, or within confined or cramped spaces, may not allow the worker to reach sufficient speed to cause the SRL to lock. A clear path is required to assure positive locking of the SRL.
- Avoid sudden or quick movements during normal work operation. This may cause the device to lock up.
- Ensure that fall protection systems/subsystems assembled from components made by different manufacturers are compatible and meet
- The requirements of applicable standards, including the ANSI Z359 or other applicable fall protection codes, standards, or requirements. Always consult a Competent and/or Qualified Person before using these systems.

#### **Ordering Information**

#### **Important Notice**

To the extent permitted by law, 3M shall not be liable for any loss or damage including any loss of business, loss of profits, or for any indirect, special, incidental or consequential loss or damage arising from reliance upon any information herein provided by 3M. Nothing in this statement will be deemed to exclude or restrict 3M's liability for death or personal injury arising from its negligence.

The mounting and use of the product described within this document assumes that the user has previous experience of this type of product and that is will be assembled by a competent professional according to product documentation. Before any use of this product it is recommended to complete some trials to validate the performance of the product within its expected application.

All information and specification details contained within this document are inherent to this specific 3M product and would not be applied to other products or environment. Any action or usage of this product made in violation of this document is at the risk of the user.

Compliance to the information and specification relative to the product contained within this document does not exempt the user from compliance with additional guidelines (safety rules, procedures). Compliance to operational requirements especially in respect to the environment and usage of tools with this product must be observed. 3M (who cannot verify or control these elements) would not be held responsible for the consequences of any violation of these rules which remain external to its decision and control.

Warranty conditions for products are determined with the sales contract documents and with the mandatory and applicable law, excluding any other warranty or compensation.
